

A multi-location regional clinic implemented a Remote Patient Monitoring solution in January 2020 and has experienced tremendous results. In summary:

**>\$50,000**  
generated in  
monthly claims with  
**+95% PAYOUT RATE**

**>400**  patients served

**~5**  NEW patients added daily

**80% of patients**  
have had positive health outcomes

**60% of patients**  
are actively participating in the program

With COVID-19 policy changes, this clinic group and many others are now seeing even more substantial results from their RPM programs.

## TESTIMONIALS FROM RPM PROGRAM LEADERS

CoachCare has been instrumental in helping us roll-out a successful RPM program with high patient volume and a high claims success rate.

Both our providers and patients rave about using the platform. It is generating a lot of revenue for our organization with high satisfaction.
