

VIRTUAL HEALTH VS. VIDEO-ONLY

+ COACHCARE

-  Video visits & video visit reimbursements
-  Significant additional insurance reimbursements, such as Remote Patient Monitoring for at least \$170/patient/month
-  These additional reimbursements require more robust features beyond video, such as data monitoring, connected devices and audit reporting
-  Live claims support via our billing expert
-  Custom, full-featured toolset supports all your clinic needs and provides a competitive advantage
-  Secure and HIPAA-compliant

VIDEO-ONLY TOOLS (Zoom, Doxy, etc.)

-  Video visits & video visit reimbursements
-  Ineligible for Remote Patient Monitoring reimbursements
-  Commodity tool only for video, does not fulfill other clinic needs
-  Possible security risks (consumer versions are **NOT** secure)
